

# ASP Safety Alert Electrical Safety & Authorisations

**Alert Number: SA10\_19**

**5 September 2019**

## **Subject: Update to temporary pause on work in underground pits**

Dear ASP/1 and ASP/2s,

Further to the ASP alert issued at 10:00pm last night, Ausgrid has extended the temporary pause on any work requiring access into underground pits for another 7 days (until midnight on 12 September 2019) across the network unless otherwise advised.

For urgent works where it is not feasible to isolate supply of all other energised cables in the pit, or where there are no energised cables present, work may only proceed following Ausgrid COO approval.

This directive does not include circumstances where there is an immediate threat to life and limb.

We will keep you updated.

Regards,

**Trevor Armstrong,**  
**Chief Operating Officer**  
**Ausgrid**
