

ASP General Information Network Compliance & Authorisations

Alert Number: GI19_22

4 October 2022

Subject: ES4 – Accredited Service Provider Authorisation - 2022 update

Dear ASPs,

The new 2022 edition of ES4 – Accredited Service Provider Authorisation and has been published. This new edition supersedes any previous versions.

ES4 outlines the framework for authorisation of ASPs and ASP workers to perform contestable work on or near Ausgrid's network.

What has changed:

This document includes the following key changes:

- Update to ASP/1 and ASP/2 authorisation process.
- Update to Service Termination Box information.
- Inclusion of the new ASP/1 Authorisation Class 1Xi – NECF Notification Officer.

Other minor changes have been made. Refer to the grey shading in the document for details of the modifications.

The new document is available on Ausgrid's website via the following link:
